

Technology

Leadership Assignment due: May 10, 2020

During this time of Social Distancing, technology has been a critical component of remaining connected to one another. Whether it was connecting with friends, family, or teachers; most of us have had to learn new ways to use technology. Some learned with ease. Others were more reluctant.

For this assignment please think about the technology that you have used over the last seven weeks.

List the ways that you have used technology to communicate:

What has been your favorite tool/App/way to communicate?

Is there a new App/Program/piece of technology that you have learned to use?

Of the ways that you have been communicating with your teachers, what would you like to continue using in the future?

When we return to school, is there any technology that you will continue to use to communicate?

What technology/App/Program/Website/Bat Signal would you recommend that I try to use?
